

11 Series Heavy Duty Electric Strikes

IPIXA Security 11 Series electrified & Fire sereis is developed to support the need for security applications for doors used for fire escape routes & for those doors which would require electrified door locks & associated accessories

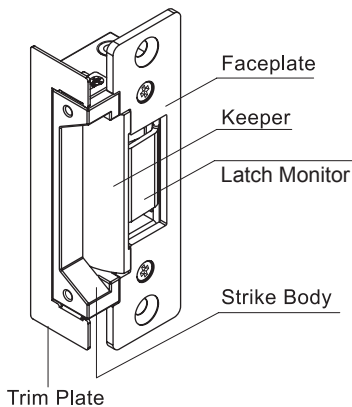

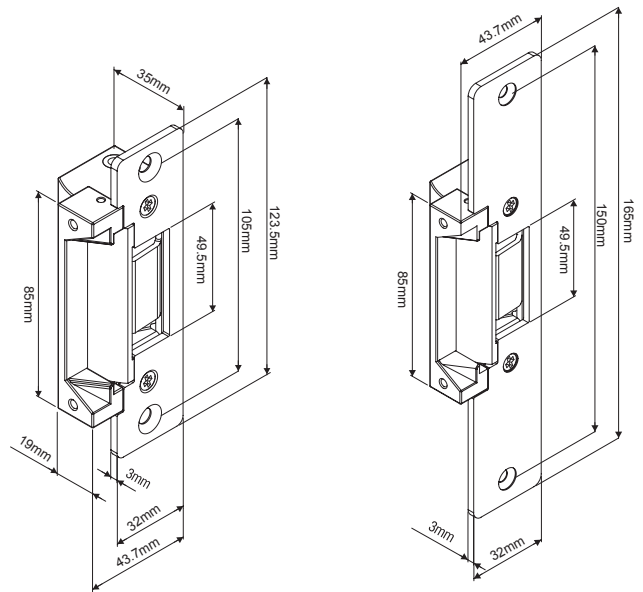

11 Series Electric Strike is a compact, high performance heavy duty electric strike designed for low profile openings. The strength is derived from a unique and patented keeper pin locking design, enabling the strike to exceed the rating of the frame, door and locking hardware.
