

# 11 Series Emergency Break Glass

The Emergency Exit Break Glass is intended for quick evacuation during fire outbreak or any other emergency situations where the access control system needs to be disabled immediately. It can be used for open or closed circuits. The emergency break glass switch cuts the circuit instantly and disables the door locking mechanism when the soft plastic is pressed hard.

EFS1110

## Product Specifications

- Output Contacts : Triple Pole
- Operating Voltage : 12 / 24 VDC
- Max Current Rating : 1A/125 VAC
- Operating Temperature : -20 ~ +55 degrees celsius
- Relative Humidity : 0 ~ 95%
- Material : ABS Plastic

## Special Features:

- Backlight illumination for visual guidance
- Hinged Protective Cover for added security
- Built-In 80 dB Buzzer to sound an audible alert upon breaking of plastic glass panel.
- Plastic glass panel that cracks under finger pressure without producing glass shards thus ensuring safety and reliability
- Test Key Included

Cycle Tested  
500,000
