

# 11 Series

## Door Position Switches

IPIXA Security 11 Series Door Position Switches are developed to monitor the open or closed position of the door and send the status back to the control panel. IPIXA door position switches are by default connected in closed loop. 11 Series offers a wide variety of aesthetic and functional options in terms of size, shape, color, mounting options & departure gaps to cater to all types of wooden, steel & aluminium doors.
