

# 11 Series Key Switch

The Emergency Key Switch is designed for quick override when the system needs to be disabled immediately. It is an emergency switch button with a special mechanical key lock. It is suitable for both open and closed circuits. When the emergency key switch is turned, it instantly cuts the circuit and disables the output.

EFS1104

## Product Specifications

Power Supply	: 12 VDC
Max Current	: 3A
Output Contact	: NO/NC/COM
Operating Temp	: -10°C ~ +55°C (14 - 131°F)
Humidity	: 0 - 95% (non- condensing)
Material	: Stainless steel panel
Dimension	: 86L x 86W x 20H (mm)
Weight	: 0.2 Kg
Mechanical Life	: 500000 tested
Safety Approval	: CE , RoHS
LED Color	: Red
Special Feature	: Built-in Tamper Switch

Cycle Tested  
500,000
