

11 Series Panic Button

The IPIXA 11 Series Panic Button comes with mechanical dual-push design that eliminates false alarms while ensuring immediate notification. Built for banks, retail, and high-traffic commercial zones, the duress button integrates with network-attached security and surveillance systems and ensures safety by providing immediate notification of emergencies.

EFS1203.SS

Product Specifications

Operation	: Mechanical Double Button (False Alarm Prevention)
Visible Indication	: Green to Red When Latched
Switch Type	: High Reliability Reed Switch
Signal Output	: Selectable NO / NC (User Configurable)
Monitoring	: Integrated Anti-Tamper Switch
Switch Rating	: 1 A @ 12 VDC
Universal Terminals	: 4 Pin Block for Dedicated Alarm and Tamper Circuit Wiring.
Material	: Architectural Grade 304 Brushed Stainless Steel Housing
Reset	: Physical Key Reset (Latching)
Dimension	: 75 x 62 x 29.5 mm
Wired/Wireless	: Wired
