## Request to Exit Push Bars

Designed to support security applications developed for fire escape routes & doors which require access control management, IPIXA 11 Series Fire & Electrified portfolio with electric strikes, Panic Bar, Door Position Switch, Panic Button, Emergency Break Glass, Power Supplies, and other accessories offers comprehensive solution for all access control needs.

EPA2611

### Product Specifications

- Finish: Satin Finish
- Voltage: 12 / 24 VDC
- Material: Satinless Steel Grade 304
- Suitable for Metal & Wooden Frame
- Door Dimensions: Standard upto 1000m Width
- Monitoring outputs for Latch (Door status) & Push Pad (REX)
- Designed to meet ANSI Grade 1 & UL 305 Standards
- Operation:

Free Egress from Secure Side (Corridor/Panic Bar Side) at all times.

Ingress from the Exterior (Staircase Side) may be access controlled, allowing entry only for users with valid access credentials. Upon receiving a valid command from the access control system, the latch on the push bar is retracted allowing the door to be opened, thereby granting access into the building.

Endurance Tested  
500,000  
Cycles
